REPORT OF THE SUPERINTENDENT OF SCHOOLS

January 22, 1935.

School Board and Citizens of the Dorchester School
District:

Gentlemen:

I hereby submit my fifth annual report as Superintendent of Schools.

During the school year ending in June 1934 the Board operated schools at Cheever and North Dorchester. The average membership being 6.65 for the latter school and only 2 being in that district this fall, the North Dorchester school was not opened and the pupils transferred to Cheever. It being a reasonable assumption that the school population at Cheever with the Groton children will remain more stable, it seems advisable to move the chemical toilet to Cheever. The North Dorchester school should be shingled to keep it in good condition.

The District is boarding and sending 2 children to Lyme Center. These children are in camp too far from Cheever to attend that school. Two more children are being boarded at Cheever. These four children were not in the district when the budget was made up last spring, but the prudent handling of the finances of the Board will probably carry the expense through the year without an emergency appropriation and in this event the State Aid will come during the next year.

Owing to the above unexpected expenses the Board did not feel it advisable to increase the salary of the teacher this fall, but in the judgment of the superintendent there should be a substantial increase next year to bring it up to approximately the amount paid for similar service throughout the state.

The work of the school is progressing satisfactorily as measured by standard tests and supervision and the number is such that plenty of individual instruction is given.

Respectfully submitted,

ALLAN M. McCURDY.
